

IDPH FAST PHACT

FEATURING

Trials and Tribulations: Implications of Public Health Regulations on Clinical Practice

March 19, 2026
12 – 1 p.m. (CST)

Join us for a series of clinician-directed interactive info sessions in an office hours format targeted towards raising timely awareness of emerging and high-impact public health issues that directly involve clinical care or health system considerations. All health care professionals are invited to participate.

Experts from IDPH and other agencies will discuss and present on 1 to 2 topics each session with a forum for addressing questions around clinician roles in these situations from triage and testing to reporting and prevention considerations.

Learning objectives:

- Increase awareness of IDPH regulatory oversight of healthcare facilities including hospitals, ASCTs and nursing homes.
- Explore impact of various types of healthcare facility citations with focus on “immediate jeopardy” situations.
- Enhance knowledge of clinician role in regulatory requirements at facilities.

Up to one credit hour of Continuing Medical Education Credit is Available.

Live webinar attendance with completion of post-webinar survey and is quiz required.

The Illinois Department of Public Health (IDPH), Medical Services Division is authorized to offer formal programs of continuing medical education (CME) to Illinois physicians licensed under (225 ILCS 60/) the Medical Practice Act of 1987. The formal programs must comply with the criteria in subsection (c)(3) of 68 Illinois Administrative Code, Section 1285.110 and all other criteria in this section. Each licensee is responsible for maintaining records of completion of continuing education and shall be prepared to produce the records if requested by the Illinois Department of Financial and Professional Regulation.

IMPORTANT NOTICE: Please note that this Webex service allows audio and other information provided during the session to be recorded, which may be discoverable in a legal matter. By joining this session, you automatically consent to such recordings.
