2ND ANNUAL ILLINOIS WEATHER AND PUBLIC HEALTH RESPONSE SUMMIT

UNIVERSITY OF ILLINOIS SYSTEM
OFFICE OF STRATEGIC INITIATIVES

Join us for a two-day conference focused on weather-related impacts to the health of humans, animals, and the environment.

This dynamic, statewide event brings together public health professionals and community leaders working to protect and promote health across sectors. The summit will highlight innovative approaches, strengthen partnerships, and support coordinated responses to weather-related public health challenges.

Who Should Attend:

- Public health professionals
- Local health departments
- Health care providers and administrators
- Emergency preparedness staff
- Community organizations
- Community health workers

What to Expect:

- Engaging speakers and expert panels
- Practical strategies and real-world examples
- Opportunities to connect across disciplines
- Tools to strengthen coordinated action at the local and state level
