

Building Healthier Communities for Men

Let's build healthier futures—together!

The Illinois Department of Public Health and the University of Illinois want to learn more about men's health across the state—and we need your help.

Your voice matters! Share your thoughts, ideas, and experiences to help us understand what men need to stay healthy.

We'd love to hear from you—take a quick survey or join an engagement session!

Your input will help improve programs and support for men and families across Illinois.

Nothing you share will be linked back to you.

Fill out our
**Statewide
Men's Health
Needs
Assessment
Survey**

This survey is intended for Illinois adults (age 18+) and available to residents and men's health stakeholders including, but not limited to, those with experience in public health, health care, education, social services, military or veteran's services, and community-based or outreach services

Listening Session Information and Registration

Each session will be facilitated by University of Illinois and IDPH staff, with the goal of learning from community members and engaging stakeholders in discussion on men's health needs, barriers to care, outreach strategies, and recommendations for programs, services, and an overall strategic plan for men's health. All input and experiences are welcomed and appreciated! [Click here to learn more.](#)

Questions?

Please [see our FAQ](#) for more information or visit the IDPH website for additional men's health information and resources.
